

A LAUGH RIOT YOU SHOULD SEE

PARLOR BEDROOM & BATH

Looking for Parlor, Bedroom & Bath? Most people are. No wonder. It's the funniest play Ogden has seen in many a day. Also a great comedy—

"MARY'S LITTLE LOBSTER" NOW AT

UTAH THEATRE

Where you always can depend upon seeing a good Show.

ROOSEVELT NOT TO SPEAK HERE AIR TO BE USED IN WELLS TEST

Change It Plans Makes It Necessary to Cancel Ogden Address

Franklin D. Roosevelt, Democratic nominee for vice president, has been compelled to cancel his scheduled Ogden visit and speech here this week, according to dispatches received here this morning. Salt Lake will be the only Utah city to be given the opportunity of hearing Mr. Roosevelt, who will speak in the tabernacle there Thursday night.

The state committee directly and through the national committee at Washington has exhausted every means of getting a longer stopover in Utah with no success, it was announced.

The original schedule did not include Los Angeles and routed Mr. Roosevelt through Nevada, with the first stop at Ogden. A change to include Los Angeles brings him directly to Salt Lake from southern California Thursday afternoon. It is understood that he will come by way of Tooele county and will arrive probably at 12:15 o'clock. Until Sunday morning it was the intention to hold a meeting at noon Friday in Ogden.

The chairman of the national speakers bureau wired H. L. Mulliner, state chairman, yesterday that the change to Los Angeles requires the cancellation of the Ogden and Cheyenne meetings so that the speaker can catch up with his schedule at Omaha Saturday evening.

Plain City Religion Class Is Organized

Under the supervision of Superintendent Joseph Grue of the North Weber Stake religion class, the religion class of the Plain City ward was organized yesterday. Florence Jenkins was selected as principal, with Martha England and Selma Maw as aides.

The stake officers also visited the Shuterville and West Ogden wards where the religion class organizations will be effected at a later date.

MOVE FOR GYM HERE PRAISED

Salt Lakers Tell of Benefits Derived From Similar Institution There

Prominent business men of Salt Lake continue to urge the Ogden movement to build the Weber gymnasium and daily letters are being received by the gymnasium committee here telling of the influence a gymnasium has on the community and the reasons why Ogden should have such an institution.

Most of the letters are coming from members of the Deseret gymnasium in Salt Lake who have gained much in health through attending classes and taking advantage of the opportunities for physical development although they are classed as the "busiest business men in Salt Lake."

The Weber gymnasium committee is completing plans to launch the drive for funds during September. No detail is being overlooked to make the campaign successful and it is hoped as a result that sufficient money will be raised to immediately begin construction of the beautiful building. The campaign will include all Weber county and will be launched with an enthusiasm such intensity that the attention of every resident will be focused on the gymnasium movement.

The latest letter endorsing the move for the construction of the gymnasium comes from D. Carlos Kimball, of the Kimball & Richards security company of Salt Lake, who has been an enthusiastic gymnasium member for years and when his son reached the age to become a member, promptly bought him a membership.

Mr. Kimball's letter follows: "I know of no civic enterprise that has accomplished more for the moral, spirit, health and vigor of the community than the Deseret gymnasium. It is efficiently managed, well equipped, and always sanitary."

"I have enjoyed the accommodations of this institution since its organization. Under the direction of efficient instructors, I, like other men and boys have been able to keep myself in splendid health. The atmosphere of the institution induces a feeling of play and a desire to participate in the games and to relax and throw off the cares of business. This opportunity for relaxation and diversion has done me an immense amount of good and given me pleasure and satisfaction."

Mr. Kimball's letter follows: "I know of no civic enterprise that has accomplished more for the moral, spirit, health and vigor of the community than the Deseret gymnasium. It is efficiently managed, well equipped, and always sanitary."

HOW ST. LOUIS GETS ITS WATER

Ogden Boy in East Compares That With the Local Supply

"Oh! for a drink once again from those wonderful artesian wells of Ogden. This is the uppermost desire of Eldon L. Taylor, formerly of Ogden, who is now in St. Louis, Mo., where, he explains in a letter, the drinking water is 'dope.'"

Mr. Taylor also yearns for the daily happenings of Ogden, which he now classifies as "the biggest little city in the United States," and has written the Standard-Examiner and asked to become a member of its family.

ST. LOUIS SYSTEM

Mr. Taylor explains the system used in providing St. Louis with drinking water and, after reading, any Ogden resident will probably scratch St. Louis from his list as a possible future home.

"While in St. Louis," Mr. Taylor writes, "I have been studying industries, parks and everything in general."

"One of the things I have taken a great deal of interest in is the method of obtaining water for such a large population. The city has its own pumping station a short distance north of the city. The water is pumped from the dirty and muddy Mississippi river by means of four great pumps and through two intake towers out in the center of the river."

"The water is pumped to a station on the hillside where chemicals are added to it. At this place 6 1/2 grains of lime and 3-8 grain of iron are added for each gallon of water that passes through the system."

FITTING TANKS

"This mixture is then run into settling tanks where the dirt and silt are allowed to settle. The water is then taken out of the tanks and aluminum sulphate and chlorine gas are forced into it. From here it is taken to different reservoirs about the city and from these it is taken and consumed by the public at the rate of 194,000 gallons a day."

"The water when pumped out of the river is claimed to be ninety per cent pure. I wonder what is the other ten per cent. Oh, for a drink once again from those wonderful Ogden artesian wells."

"I am afraid the good people of Ogden will never begin to realize what wonderful water they have. If they were to come out here and drink this warm, chemically-made 'dope' for awhile they would be much better able to appreciate their wonderful clear, cold and pure water."

S. P. to Refund Fares of Livestock Drivers

Cattlemen generally will be interested in the announcement by the Southern Pacific company that it has reinstated the rule cancelled by the United States railroad administration regarding the refunding of fares of livestock drivers.

This practice is local to the Pacific Coast lines. Middle western and eastern lines do not make these refunds, but allow free transportation only on caretakers accompanying livestock and returning to points of origin.

In the middle west and east livestock is shipped to union stockyards and then to the Pacific Coast, except at Portland. It is necessary for dealers to send buyers into the country and take delivery either on the spot or at the railroad point of shipment and then return as caretakers with the livestock.

The refund of fares by the Southern Pacific therefore on caretakers today afternoon. P. J. Jensen of the Pacific Coast line, who has been in competition with the movement to middle-western and eastern territory.

5000 Tourists See Beauties of Canyon

The ninth of twelve scheduled week tour parties en route from Chicago and Salt Lake to the point to Yellowstone National park was due to arrive in Ogden at 3:30 o'clock today from the east. While in this city the tourists were booked to enjoy an hour of the Hermitage in Ogden canyon before resuming their journey north.

More than 125 tourists are in the party. Sixty-three are on schedule to arrive here Thursday on a similar journey. The three remaining tours, each of which will have more than 125 on each train, will arrive here during the next three weeks.

Thus far this season more than 5,000 tourists have visited the Hermitage in Ogden canyon, arriving here on the Oregon Short Line and Union Pacific systems en route to the park, according to Depotmaster Tracy.

U. S. ENGINEER INSPECTS ROADS

B. J. Finch Returns From Southern Utah Where Many Projects Are Going On

Road work in southern Utah is making rapid progress, according to B. J. Finch, district engineer of the United States Bureau of Public Roads, who returned to Ogden yesterday from a week's tour of the southern part of the state, where he inspected various roads.

During the forepart of last week Mr. Finch inspected the Price-Castle Dale road with State Engineer J. R. Ellis. This road is nearing completion, according to Mr. Finch, and will rank with the best roads in the state when the work is finally completed.

The Ephraim-Orangeville road is about finished, but three miles of the road to the summit remaining uncompleted. This road, according to Mr. Finch, will be ready for traffic within the next two weeks. The Salina-Emery road, which is being constructed to eliminate two fords, will be completed soon, two and a half miles remaining uncompleted. Of the Sevier-Cave Fort road, connecting Richfield and Marysville highway with the Arroyo trail, twelve miles of the twenty miles of grading work have been completed. This road will be ready in November.

The Cedar-Long Valley road, from Cedar City to a place known as Cedar Breaks, and the St. George roads were also inspected. Eleven miles of the Cedar City-Long Valley road is now under construction. With the addition of eight more miles in this section the road will connect with a rich timber section, which the forest service officials hope to open up during the early spring, the timber to be sold in southern Utah. Mr. Finch also inspected the Cedar City-Lund Post road.

Record Shipment of Sheep Arrives Here

Fifty-nine carloads of sheep, representing a shipment of 11,078 of the woolies were listed in the receipts at the Ogden Union Stockyards this morning.

This is the largest shipment at the local yards for months. The biggest shippers were C. D. Arthur and E. H. Tryon of Klamath Falls, Ore., with 29 carloads each. Cattle receipts reached 226 and hogs 452.

'DEEP PURPLE' AT THE OGDEN IS STORY OF THE UNDERWORLD

"The Deep Purple" at the Ogden theatre, dealing with attempt of a crook to corrupt a sweet and unsuspicious girl, is an excellent example of modern screen melodrama. The play is based on the dramatic production written a decade ago by Paul Armstrong and Wilson Mizner. Because of the wider field afforded by the camera, the lens interpretation naturally is much more elaborate than the original footlight presentation. Director Walsh has woven into the production a seductive fascination and a gripping appeal, and yet has shown through the development of the plot the folly of wrong doing.

The play is well seasoned with those ingredients which stimulate the entertainment appetite of the public—mild action, intrigue, suspense, adventure and love. Then, too, there is the play of a woman's wit. Kate Fallon, who "knew" because she had lived another girl "straight."

"The Deep Purple" is E. A. Walsh's first offering as an independent producer. The manner in which he has handled this production indicates that he will be responsible for many entertaining screen features.

START TO CAN TOMATOES HERE

Fifteen Plants of Northern Utah to Begin Fall Run Tomorrow

Fifteen canning factories of Northern Utah will start operations for the fall canning season tomorrow, according to A. S. Inghett, of the National Canners' association officers here. The factories were scheduled to start their operation today but due to the fact that the picking of tomatoes was halted yesterday, the change was necessary.

Twenty other plants located in other parts of the state will start active operations during the early part of next week, plans for the opening having been completed.

While a record output is predicted by some canners of the state the majority of those engaged in the business state that the output will exceed 1919 by only a small margin.

Cowdry Seeks Divorce, Claiming Desertion

George W. Cowdry of Ogden has filed suit in the district court seeking divorce from his wife, Burnetta R. Cowdry. In his complaint, Mr. Cowdry charges that his wife deserted and abandoned him August 4, 1919, and since has lived apart. He set forth that she left him without reason or sufficient cause and against his will and consent. There are no children.

The couple were married in Ogden, January 2, 1917. Mr. Cowdry asks that the matrimonial bonds be dissolved by the court.

Only forty-eight persons out of every 1,000 population reach the age of 60 years.

Religion Classes Part of School Work

The religion class organization is now a branch of the church school system of the Latter-Day Saints, according to statements by William A. Morton of the general board who was present at the monthly union meeting of the Weber Stake religion classes held in the Ninth ward chapel yesterday afternoon.

P. J. Jensen of the general board, President John Watson of the Weber stake and Thomas A. Shreeve of the high council were also present. The meeting was presided over by E. H. Hinkley, superintendent of the Stake religion class.

The religion classes in the stake will commence their regular weekly meetings in all the wards on Wednesday, September 15. The organizations in the stake have been perfected and preparations are being made for the work of the coming season. In a brief address delivered to the workers yesterday Elder Morton explained the new plan.

The religion class was still unpopular with many people, but the best efforts because it was filling a need of the children caused by the neglect of the public school system to provide religious training.

The ward organizations will now be known as facilities with a principal and aides. The meeting yesterday was also addressed by President Shurtliff and President Watson.

14th Ward Mutuals to Hold Melon Bust

A watermelon bust will be held Friday evening at the home of Ed. Stone, Washington avenue and Thirty-fifth street, under the auspices of the Fourteenth ward Mutuals. Two hundred melons will be provided and an excellent program of music and dancing has been arranged.

The spacious lawn at the residence will be brilliantly illuminated with hundreds of electric lights, the street will be washed and waxed for dancing, the music to be provided by a five piece orchestra.

During the evening readings will be given by Miss Frances Marshall and songs will be rendered by a number of the best local vocalists.

Last year a similar event was attended by 700 people and preparations are being made to take care of that number this year.
